MEMORANDUM FOR: Director of Training

4 June 1971

	SUBJECT: Weekly Activities Report No. 22 1 - 4 June 1971	
	1. Progress report on the next National Interdepartmental Seminar (NIS), 12 - 30 July: 4 nominees (WH, AF (2), and OSR). O/DDS and have been informed.	25X1A9a
25X1A9a	2. Reference weekly report 29 April, on the subject of AF and taking basic French at the Berlitz School: this was one of the external language/cover	25X1A8
25X1A8	problem cases and a major cause of meeting with DDP/TRO, AC/LS, and C/AIR in early May, followed by the DDPLG 5 May memorandum to his Division and Staff	
25X1A9a	Chiefs on justifying use of external language lactifies. Mr. withdrew himself from Berlitz, after only 3 expressing dissatisfaction with	
25X1A9a	the instruction being received, e.g., constant changes in tutors, etc. AF has moved up his ETD to Africa, and will now pick up his French training in LS/TR, part-time! He has refunded the balance of his advance (\$775); \$310 was paid to Berlitz. Some money saved; some cover eroded; much time wasted in AF, and OTR!	25X1A8
25X1A9a	3. who was scheduled to attend the DODCI Intermediate Executive Course starting 6 June, had to be cancelled because of a job priority. It is too late to enroll a substitute, so we will lose a valuable DODCI slot.	
	4. Many requests for the special scientific and technological summer institutes (one and two weeks) have been received over the past few months. Some interesting	

and Instrumentation for Mechanical Analysis at the

cases: Contemporary Optics at the University of Rochester; Laser and Optics for Application; Principles and Methods of Nuclear Fuel and Power Management at M. I. T.; Cost Control through Systems Analysis at Georgia Institute of Technology; Operations Research and Management Sciences,

Approved For Release 2002/06/17 : CIA-RDP78-

University of Michigan; Systems Analysis and Application in Administration at the University of Wisconsin; Microprogramming at the University of Pennsylvania; Compilers and Operating Systems at the University of Maryland; Engineering and Management, and Computer Systems Analysis at UCLA, and Walsh Functions and Their Applications, given by the Association for the Advancement of Sequency Theory at Aspen, Colo. Most of these Institutes carry a tuition charge ranging from \$200 to \$600.

25X1A9a	5. OSR is nominating Mr, GS-16, its Deputy Director, for IBM's Data Processing for Intelligence Community Executives, 28 June - 2 July 1971. We have three spaces in the course and IBM is anxious to get the names of our nominees.
